

IBM Tririga T-10 MSCI Abuser Community Minutes 16-OCT-12

You are on the hook with an action item if you see your name in **bold**.

Mission Statement "It is the intent of the T-10 MSCI User Community to create a community-based resource for identifying software development issues, sharing solutions, and discussing best practices of the IBM MicroStation CAD Integrator tool. It is also the intent of the MSCI T-10 User Community to foster a dialogue within IBM Tririga to: 1) communicate known issues, 2) escalate identified issues through to resolution, and 3) provide customer advisory input for desired and continued product development."

2012 Goals

- Create Web Forum – year end goal....not too hard to do. We can discuss in November the format. **Jen** to identify potential website URL's by Oct 9th meeting. **DONE**. **Jen** to register T-10MSCI.com by next meeting.
- Roping in the Tririga team??? And others?
 - Ryan Koppelman of IBM was invited, but didn't attend...

2013 Goals

- Pulse Conference Attendance – March 3-6, 2013.
 - Jen going to be on a panel discussion....stay tuned for more information.
- Pre-conference Symposium – Feb 2013 Teradyne Agoura Hills, CA?
 - Let's discuss if this is an idea worth pursuing in Nov...
 - If not "doable", let's all meet for breakfast during the conference.

Known Issues, Bring a Tissue...

Will tackle these on the Oct 9th meeting now that we have all the administrative crap out of the way:

- What worked in FC7x that we lost in T-10...color fills, simple queries, etc.
- Labels – line spacing, etc.
- Fill Issues
- Publishing Errors – with cells and PDFs + Java Heap Errors
- Inserting people through the application and having the graphic reports reflect the addition. CFI submitted IBM Helpdesk ticket....stay tuned.

New Issues...

- Anyone get new licensing agreement contracts? Did cost go up?
- Objective into 2013 would be to submit HelpDesk tickets into IBM as a unified request so we have visibility within their organization.
- Prior to that we need to identify known issues and then prioritize them.
- Next meeting Dec. 4th – 11AM PT, 2PM ET....see you then.
